Popcorn WebOS TV Application - UX Scenario Document

Application Name: Popcorn
Application ID: com.popcorn.client.webos
Version: 1.0.26
Document Date: January 2026

---

1. Application Overview

Popcorn is a lightweight media client application that connects to a personal Popcorn media server. The application allows users to:

- Browse and discover movies and TV shows from their personal media library
- Search content across configured indexers
- Manage and monitor torrent downloads remotely
- Stream media content to their LG TV

Important: This application requires a connection to a Popcorn backend server. The app acts as a thin client - all media management runs on the user's personal server.

2. Test Account Information

🔐 Test Credentials for LG QA Team

Field	Value
Email	lg-test@popcorn-app.com
Password	LGTest2026!Secure

Server URL	https://popcorn-vercel.vercel.app

Note: This test account has been pre-configured with sample media content for testing purposes.

3. User Flow - Step by Step

3.1 Application Launch

Step 1: Launch the Popcorn application from the LG Content Store
Expected Result: The application loads and displays the main interface (hosted on Vercel)

3.2 Initial Configuration (First Launch Only)

Step 2: On first launch, the user is presented with a setup wizard
Actions:

1. Select interface language (English or French)
2. Enter server URL or use default (https://popcorn-vercel.vercel.app)
3. Accept terms of service

3.3 Authentication

Step 3: Login screen is displayed
Actions:

1. Enter email: `lg-test@popcorn-app.com`
2. Enter password: `LGTest2026!Secure`
3. Press "Sign in" button

Expected Result: User is authenticated and redirected to the home screen

3.4 Home Screen Navigation

Step 4: Home screen displays media content
Navigation:

- Use **Arrow keys** (Up/Down/Left/Right) to navigate between items
- Press **OK/Enter** to select an item
- Press **Back** to return to previous screen

Available sections:

- Continue Watching (resume previous content)
- Popular Movies
- Popular Series
- Recent Additions

3.5 Search Function

Step 5: Access search from the navigation menu
Actions:

1. Navigate to "Search" in the side menu
2. Use on-screen keyboard to enter search query
3. Results display movies and series matching the query

3.6 Content Playback

Step 6: Select and play content
Actions:

1. Navigate to a movie or episode
2. Press OK to view details
3. Select "Play" to start streaming

Playback Controls:

- **Play/Pause:** OK button or Play/Pause key
- **Rewind/Fast Forward:** Left/Right arrows
- **Stop:** Back button

3.7 Settings

Step 7: Access settings from the navigation menu
Available options:

- Server Configuration
- Account Settings
- Language Preferences
- Logout

4. Remote Control Mapping

Remote Button	Function
Arrow Keys (Up/Down/Left/Right)	Navigate between UI elements
OK / Enter	Select / Confirm / Play-Pause
Back	Go back / Exit current screen
Home	Exit application
Play/Pause	Toggle playback
Stop	Stop playback
Rewind/Fast Forward	Seek backward/forward

5. Technical Requirements

> - **Network:** Internet connection required
> - **Resolution:** 1920x1080 (Full HD)
> - **Type:** Web application
> - **Backend:** Hosted on Vercel (https://popcorn-vercel.vercel.app)

6. In-App Purchases

> ⚠️ **No In-App Purchases**
> This application does not contain any in-app purchase functionality. The application is

> completely free to use.

7. Advertisements

> ⚠️ **No Advertisements**
> This application does not display any advertisements.

8. Notes for QA Team

> 📋 **Important Notes**
>
> 1. The application loads content from an external server (Vercel). Please ensure the test device has internet connectivity.
> 2. The test account provided above has been pre-configured with sample content.
> 3. All navigation is optimized for TV remote control - no mouse or touch input required.
> 4. The application supports both English and French languages.
> 5. If you encounter any connection issues, please verify the server URL is set to: `https://popcorn-vercel.vercel.app`

9. Contact Information

> For any questions or issues during testing, please contact:
